

Radon Disclosure

Radon is a colorless, odorless, naturally occurring radioactive gas that may cause lung cancer. It's a known human carcinogen that is the leading cause of lung cancer in non-smokers and the second leading cause of lung cancer in the United States.

As regards (address):

____ I (the landlord) do have information about radon in the premises, and here is that information.

____ I (the landlord) do not have information about radon in the premises.

The Landlord has provided the Tenant(s) a copy of the most recent brochure published by the department of public health and environment that provides advice about radon in real estate transactions.

Bruce Cohen (landlord)
